National Intelligence Officer for Warning

SUBJECT: Draft Warning Items for the DCI

Attached is my draft bi-weekly warning review list. The intention behind the list is to keep true warning issues in sight during the periods when current events do not inspire new reporting. The attached copy is for your perusal and comment. If you believe it is in error or have a suggestion, please advise by noon Thursday, 16 June. The final copy will reflect your comments. If you do not respond, I will presume coordination.
